

OLC WEEKLY LEARNING PLAN

Message from teachers

We wanted to take a moment to recognise how hard all the children in KS1 have been working. It is lovely to see their enthusiasm for learning and we cannot wait to continue this special journey through Key Stage 1 with you!

Just a quick reminder that reading books need to be brought into school every day. Books will be changed once your child has read their current book a few times and can recall the words in the story without needing to sound them out.

Homework will be set every Friday and should be returned to school for marking by **Wednesday at the latest**. Each week, we will write the pages to be completed on the contents page, and the activities will always consolidate learning that the children have already covered in school.

Thank you for your continued support!

Mrs Mitchell, Miss Hannah and Mr McEvilly

This Weekly Learning Plan shares the learning that will be taking place this week.

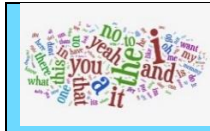

Teachers:	Miss Hannah and Mr McEvilly	Year group:	Year 2	Date:	23.03.26

OLC WEEKLY LEARNING PLAN

	Monday	Tuesday	Wednesday	Thursday	Friday
<p>R.E.</p> 	LO:	<h3>Gospel of the Week</h3> <p>This Sunday's Gospel tells the story of a woman who had done wrong things. Some people wanted to punish her, but Jesus showed kindness instead. He said, "Let anyone who has never sinned throw the first stone." One by one, the people walked away. Jesus did not say her mistakes were okay, but he forgave her and told her to make better choices. We learn that we should not be quick to judge others. Everyone makes mistakes. Jesus teaches us to be kind, to forgive, and to help others choose what is right, just as he does.</p>	<h3>Gospel Values and Virtues</h3> <p>This half term, KS1 pupils will develop the Gospel Values and Virtues of Intentional and Prophetic. Children will learn that being intentional means making thoughtful, kind choices that reflect Jesus' teachings. Being prophetic means speaking and acting for what is right, even in simple, everyday situations. Through Gospel stories, discussion and role play, pupils will explore how Jesus showed courage, fairness and love. They will practise using kind words, standing up for others and making positive choices in class and during play. By developing these virtues, children will grow in confidence, take responsibility for their actions and contribute to a caring classroom community.</p>	<h3>Catholic Social Teaching</h3> <p>This half term, KS1 will explore the Catholic Social Teaching principle of the Option for the Poor. Children will learn that this means caring especially for people who are poor, vulnerable or in need, just as Jesus did. Pupils will discuss ways we can show this through kindness, sharing, fundraising and including others in play. Teachers will model empathy and fairness, helping children understand that our choices can support those who have less. Understanding this principle encourages gratitude and compassion. Throughout the half term, children will practise generosity, notice when others need help, and take simple actions to make a positive difference.</p>	LO:

OLC WEEKLY LEARNING PLAN

	Textbook B: Mass, Capacity and Temperature				
Maths 	6. Measure in Litres	7. Measure Temperature Using a Thermometer	8. Read Thermometers	Consolidation	Consolidation
English	<p>For the next 4 weeks we will be focusing on the story, Sidney, Stella and the Moon</p> <p>We are structuring our lessons by splitting it into 4 shorter activities, beginning with developing fine-motor skills and pencil grip through various activities such as using playdoh, scissor control, finger gym exercises etc. We will then be practising forming letters correctly and developing our handwriting before moving onto an oracy based exploration of our class story. Finally, combining all of this together in a writing activity.</p>				

How the Moon Moves

Begin by revisiting yesterday’s writing and reading a few examples aloud to reinforce spoken language objectives. Introduce the new subheading: **How the Moon moves**. Model how to underline or clearly write the subheading so it stands out.

Teach children that the Moon orbits Earth and that it appears to change shape (phases). Model sentences such as: “The Moon moves around Earth.” “We see different shapes of the Moon.” Demonstrate how to join ideas using “and,” “but,” and “because”. For example: “The Moon does not shine by itself because it reflects light from the Sun.”

Encourage correct use of capital letters for “Earth,” “Moon,” and “Sun”. Children will

Travelling to the Moon

Today’s lesson adds an exciting new section: **Travelling to the Moon**. Begin with discussion: How do astronauts get to the Moon? Introduce simple facts about rockets and space travel. Model writing the subheading clearly and explain that this section will tell the reader how humans have explored the Moon.

Share example sentences such as: “Astronauts travel to the Moon in a rocket.” “They wear special suits to help them breathe.” Encourage children to include interesting adjectives, e.g., “a powerful rocket” or “a heavy space suit.”

Model including a question for engagement: “Would you like to walk on the Moon?” and a fun fact: “Did you know astronauts bounce when they walk on the Moon?”

Children will write their own short section, focusing on capital letters, full stops, and checking their sentences make sense by re-reading.

Fun Facts, Pictures and Captions

In the final lesson, children will complete their fact files with a **Fun Facts** section and add illustrations with captions. Begin by modelling the subheading **Fun Facts** and brainstorm exciting “Did you know?” sentences together, such as: “Did you know the Moon has no air?” or “Did you know the first astronauts landed on the Moon in 1969?”

Next, model drawing a clear picture of the Moon or a rocket and labelling key features. Demonstrate how to write a caption underneath, for example: “The Moon has many large craters.” Explain that captions tell the reader what the picture shows.

Children will add labelled drawings and captions to their fact file.

Easter Bonnet Parade

Easter Writing Activity

OLC WEEKLY LEARNING PLAN

write a short paragraph under this subheading, aiming for clear sentences and consistent present tense. Support them with vocabulary banks and oral rehearsal before writing.

Science

Plants: Growing Things

Lesson 6: Cress

LO: Explain how seeds grow into plants.

Start the lesson by looking at the cress, children will now update the final section of the cress growth worksheet so they can see the progression of how the cress has grown. Has it grown as much as they thought it would? Encourage children to label the cress with what they can see, stem, leaves etc. Children can then try the cress if they would like to.

Activity: Final activity where children match together questions and answers about how seeds can grow into plants.

OLC WEEKLY LEARNING PLAN

<p>Geography</p> 	<p style="text-align: center;">Hot and Cold Places</p> <p style="text-align: center;"><u>Lesson 6: How have real animals adapted to hot/cold places?</u></p> <p>Start with a recall about whether it rains a lot in the desert – true or false?</p> <p>Discuss how children are going to investigate how real animals have adapted to survive in the different climates. Explain what a climate is. Ask which animals the children think live in cold climates and which live in hot climates. Can they explain why? Complete question 1. Complete the second question about a penguin and a chameleon. Can the children fill in the gaps correctly?</p>
<p>Computing</p> 	<p style="text-align: center;">Algorithms Unplugged</p> <p style="text-align: center;"><u>Lesson 5: Debugging Directions</u></p> <p>How can we make these instructions more detailed and precise? Discuss what it means to debug something. Complete the activity of something that has gone wrong. How can this be debugged so it can run smoothly? Using the maps, children can have a go at spotting the mistake in the set of instructions and working out what went wrong and how it can be fixed.</p> <p>Prepare: Debugging sheet for partner work/maps</p> <p style="text-align: center;">https://www.tentenresources.co.uk/pdfcreation/life-to-the-full-primary-pathway-3/</p>
<p>PSHE</p> 	<p style="text-align: center;">KS1 Module 2, Unit 3 - Session 2: Rules To Help Us</p> <p>Building on learning from the previous session about the similarities and differences between ‘real’ and ‘online’ life, this session helps children to recognise safe and unsafe situations in both. Through activities and the story of Smartie the Penguin, children will understand that being safe is not just about physical precautions, they also need to feel safe on the inside.</p>
<p>Music</p> 	<p style="text-align: center;"><u>Pitch: Musical Me – Lesson 5</u></p> <p>Begin by revisiting pitch patterns from <i>Once a Man Fell in a Well</i> through paired discussion of which phrases match a visual glockenspiel pattern. Reinforce pitch direction using listening, hand movements, and slow singing of all four phrases. Introduce three-line notation, explaining how high and low sounds are shown, and identify missing notes within the displayed score. Working in pairs with tuned percussion, pupils sing, play, and determine the correct pitch for omitted notes before recording them on a staff. Conclude by revealing correct answers, performing the complete song from notation, recording outcomes for assessment, and optionally completing a short quiz to check understanding.</p>

Art/DT

Design and Technology – Mechanisms: Making a Moving Storybook

In this Year 1 Design and Technology unit, pupils will explore simple slider mechanisms to create a moving storybook. Children will investigate side-to-side and up-and-down sliders, identifying the movement each mechanism produces and how it can be used to create purposeful motion within a picture. Through teacher modelling and practical exploration, pupils will examine examples of moving books and discuss how sliders help parts of an image move. Pupils will design their own moving page based on a familiar story, clearly labelling their drawings to show which parts will move and in which direction. They will then make their product, selecting appropriate materials and assembling their slider carefully to ensure it works as planned. Once completed, children will evaluate their moving storybook, identifying strengths and any weaknesses in the mechanism or design. They will suggest simple improvements, developing early skills in evaluation, problem-solving and purposeful design.

Real PE

Learning Goals

Learning Behaviour

Explore and Describe

Emerging

- I can observe and copy others.

Expected

- I can explore and describe different movements.

Exceeding

- I can select and link movements together to fit a theme.
- I can begin to compare my movements and skills with those of others.

Fundamental Movement Skills

Coordination
Ball Skills

Counter Balance
Counter Balance

Clown

Seaside

In this unit, the children will develop and apply their ball skills and counter balance with a partner through focused skill development sessions, thematic stories and games.

Emerging

I can complete **some** yellow challenges

Expected

I can complete **all** yellow challenges

Exceeding

I can complete **some** green challenges

**P.E.
Fitness**

PE Games and Activities

Pass the Hoop

Equipment needed – hula hoops.

This game is excellent for building trust and co-operation between classmates.

- Players stand in a circle holding hands.
- A hoop is placed between two children.
- The hoop must pass round the ring without breaking contact.

Add to the fun by adding more hoops!

Communicating with school
