

## Our Lady of Compassion Catholic Primary School

### Visitor Mobile Phone and Device Use

There is a policy in school for staff. Everyone else coming into school is required to abide by the following terms. They are in place for the safety of our children, staff and visitors.

Mobile phones / other mobile devices are to be switched off at all times in school. If, for any reason a call needs to be made, this can be done so from the school foyer.

Parents/carers coming to see assemblies and plays may keep their mobile devices on. It is understood that they may want to take photographs for personal use. Any photographs taken in which other children are visible must either be edited to make the other children unrecognisable or must not be put on social media sites.

Parents/carers on school trips must also keep their phones switched off and have no other mobile devices on them. In an emergency the school phone should be used.

Thank you for your co-operation.
